

Secondary Interschool Athletics Package 2018/19

Dear Parent/Guardian or Student of the Age of Majority:

Your child/ward or you (student of the age of majority) has indicated a desire to participate on the following Interschool Athletic Team: _____. Please retain this page as the content is designed to provide you with information on the Interschool Athletic Program.

Parents/Guardians or Students of the Age of Majority are requested to complete the attached PART B: Emergency Contact/Medical Information, Acknowledgement of Risks and Permission to Participate Form, and return to the appropriate school personnel.

Note: A student is ineligible to participate in try-outs, practices or competitions without first providing the coach with the completed forms.

Elements of Risk Notice:

The risk of injury exists in every athletic activity. Falls, collisions and other incidents may occur and cause injury. Due to the nature of some activities, injuries may range from minor sprains and strains to more serious injuries affecting the head, neck or back. Some injuries can lead to a concussion or paralysis or prove to be life-threatening. Injuries as a result of participation in an activity can occur without fault on either the part of the student, or the school board and its employees or agents, or the facility where the activity is taking place. A student choosing to participate in the activity assumes the risk of an injury occurring. The chances of an injury can be reduced by carefully following instructions at all times while engaged in the activity. The Halton District School Board (HDSB) attempts to manage, as effectively as possible, the risk involved for students while participating in school athletics.

Concussion Protocol: The HDSB Concussion Protocol will be followed if a student sustains a hit or blow to the head or body and/or shows signs and/or symptoms of a concussion. The student will be asked to seek medical attention from a Medical Doctor or Nurse Practitioner. If a concussion has been diagnosed, Form C3: Documentation of Monitoring/Medical Examination must be completed and returned to the school and Form C4: Return to Learn/Return to Physical Activity must be followed before the student returns to physical education classes, intramural activities, and/or inter-school practices and competitions.

Concussion information for parents and students is available at:

<https://www.hdsb.ca/students/Pages/Health%20and%20Well-Being/Concussion.aspx>

Parents, guardians, and students are advised to view this video – Concussion Management www.health.gov.on.ca/en/public/programs/concussions

Student Accident Insurance: The Halton District School Board does not provide any accidental death, disability, dismemberment/medical/dental expense insurance for student participation in school sponsored activities (e.g., curricular, intramural and interschool). For insurance coverage of injuries, parents/guardians are encouraged to consider a Student Accident Insurance Plan from an insurance company of their choice.

Sudden Arrhythmia Death Syndrome (SADS): SADS refers to a variety of cardiac disorders which are often genetic and undiagnosed that can be responsible for sudden cardiac death in young apparently healthy people. Fainting or seizure during/after physical activity or resulting from emotional excitement, emotional distress, or being startled can be a warning sign of SADS. The school response is to call Emergency Medical Services (911) and inform parents/guardians. Parents/guardians are to be provided with a SADS Form (Appendix M), which contains information about SADS as well as a Documentation of a Fainting Episode Form. The student is not to participate in physical activity until cleared by a medical assessment and the SADS Form (Appendix M) is completed by the parent/guardian and returned to the school administrator/designate. **Further information** - www.sads.ca

In the interest of student safety:

- Students must wear appropriate athletic footwear and clothing (and where required, protective equipment for the activity) for interschool athletics. Prescribed team uniforms for competition will be designated by the local sport-governing association.
- Certain types of jewellery can pose a hazard and cause injury to the wearer and/or other participants during practices and competitions. Students must comply with the instructions of the teacher/coach, following the governing body/association policy and/or the HDSB procedures when requested to remove jewellery.
- Medic Alert identification and religious articles of faith that cannot be removed must be taped or securely covered (i.e., athletic tape, sweatbands or compression clothing).
- It is strongly recommend that students have an annual medical examination.
- Students must bring emergency medications (e.g., asthma inhalers, epinephrine auto injectors) to all practices and competitions.
- Students, where appropriate, must remove eyeglasses during practices and games. If eyeglasses cannot be removed, the student must wear an eyeglass strap and shatterproof lenses.
- Students must be made aware of ways to protect themselves from environmental conditions (e.g., use of hats, sunscreen, sunglasses, access to liquid replacement, insect repellent and appropriate clothing).
- A safety inspection must be carried out at home of any equipment brought to school for personal use in interschool practices and competitions (e.g., skis, skates, helmets).

Note: Students returning to any physical activity from non-concussion related injuries are required to complete Appendix B: Return to Physical Activity - Non-Concussion Medical Illness/Injuries.

Should you have any further questions or concerns, please discuss this with the activity's coach/staff sponsor.
