

NELSON STADIUM UPGRADE

After many years of negotiations, Nelson Stadium underwent an upgrade of the playing surface in 2011. This much-needed renovation was a joint project between the Halton District School Board and the City of Burlington. At this point in time we hope to turn our attention to other upgrades in the Stadium.

Our Athletic Department is about to kick off our fundraising efforts in the community to help improve several other areas of the facility. It is our intention that the following areas of the Stadium be addressed and brought up to today's standards:

- **Inclusion of a NELSON LOGO at Center Field/ Both Endzones**
- **Purchase of Player's Benches**
- **Refurbishment of the Media/Pressbox**
- **Improved Lighting for night time activity**
- **Aesthetic improvements around the stadium (landscaping & new fencing)**
- **Donors Wall with Gated Entranceway to preserve and promote the supporters of this project.**

We are calling on all Nelson Alumni, local residents and the corporate community to get involved in this initiative. We welcome any donations that you can put towards making this facility truly representative of Nelson High School and the City of Burlington.

Please get in touch with the Athletic Department to become involved.

Sincerely,

Nelson Stadium Committee
